              G
V1:     When we as enemies once stood
          Em7                                CMaj7
        Under Your wrath, without excuse or plea
                 DMaj7  D          G
        To our foolishness and shame
        You came, revealed Your love
              Em7                                  CMaj7
        And reconciled us through Your blood that we
                     Dsus  D       G
        We would never be ashamed

                            C                    D
PC1:    Unashamed to stand before the throne
                           Bm7              Em
        And hear You call us as Your own
                       C6                  Dsus                    G
        What joy to plea the name of Him who pleads for us

                                  G
C:      For there's no other power for salvation
                           Em7
        No greater miracle in all creation
                    CMaj7             Dsus  D
        Than the cross, than the cross
                                     G
        And though it bring the scorn of man upon us
                              Em7
        We fix our eyes on joy You've set before us
                         CMaj7                 Dsus  D  G
        Through the cross, through the cross

V2:     So 'til the day of glory comes
        By this same power by this same blood we know
        That through everything
        No height no depth no thing to come
        Can separate us from Your love so we
        We will never be ashamed

PC2:    Unashamed to stand when suffering comes
        Humbly proclaim Your truth in love
        What joy to bear the name of Him who bore our sin
