

## GRAIN OF WHEAT

Intro: D A/C# Bm G D A G A D

V1:           D                   A/C#                   Bm                   G  
Unless a grain of wheat should fall into the earth and die  
          D                   A/C#                   Bm                   G  
Alone it shall remain without a single fruit abide  
                  D A/C#           Bm                   G  
But should it die,    fall to the earth and die  
          D                   A                   G           A           D  
A hundredfold this single grain shall surely then provide

V2:   Unless a man should hate his life on earth compared to Christ  
      The life he loves he'll surely lose, true life he'll never find  
      But if he dies, falls to the earth and dies  
      This life on earth though he may lose, he'll find eternal life

V3:   No greater love have we than this, no greater earthly prize  
      That You would give Your life for us, a perfect sacrifice  
      And as You died, came to the earth to die  
      A multitude of souls You reaped, forever to abide

V4:   So give us mercy give us grace to follow at Your side  
      When troubled let our souls still cry, "Your name be glorified"  
      So as we die, fall to the earth and die  
      A hundredfold through this small life, Your name be glorified
